<https://github.com/ArielVLevin>

Recent Computer Science graduate with a strong foundation in software development and hands-on experience in technologies like C++, React, Node.js and Python. I am passionate about building apps and web applications and eager to apply my problem-solving abilities in a collaborative environment. I'm seeking an entry-level software engineering role where I can contribute to innovative projects and continue to grow my technical expertise.

EDUCATION

Bachelor Of Science – Computer Science

The Open University Of Israel
2020-2024

PROJECTS

Personal Web Site

<https://arielvlevin.com>
A web application for showing my projects and sites.
Technologies Used:
Next.js, TailwindCSS, Docker + Google cloud

Ice Cream Calculator and Recipes App

<https://scoopscience.com>
Currently developing a web application for calculating ice cream recipes with a React.js frontend and Node.js, Express, and MongoDB backend.
Technologies Used:
React.js, Node.js, Express, MongoDB, Axios, Mongoose, React-DOM, React Query, TailwindCSS, TypeScript, Docker + Google Cloud

Assembler

Developed an assembler program in C that converts assembly language commands into binary code.
Technologies Used:
C, File I/O

Server and Client Backup Software

Developed server software in C++ for file backup/restoration and client software in Python with RSA encryption using CryptoPP.
Technologies Used:
C++, Python, CryptoPP (RSA encryption)

WORK EXPERIENCE

Security personal

DECEMBER 2020 – OCTOBER 2024

Demonstrated responsibility and reliability in all aspects of security duties

- Maintained clear and professional communication with clients to ensure their needs were met
- Utilized excellent time management skills to handle multiple tasks and responsibilities effectively
